Brussel Sprouts

Have you ever played a game called Brussels Sprouts? No, this doesn't have anything to do with eating delicious little cabbage like vegetables. Brussels Sprouts is a game about partitioning space. Come learn to play this game with us on Saturday and we can also explore how it relates to planar graphs and the Euler Characteristic. Come explore these questions and more with us at the next...Evanston Math Circle!

Come join us at the:

EVANSTON MATH CIRCLE
Saturday, March 25, 11-12:30
Northwestern University, Lunt Hall Room 218 (2nd Floor)

Math Circle is geared towards eager middle-school students, but students of other ages and backgrounds are welcome as well. More information is available at http://www.math.northwestern.edu/~scanez/mathcircle/
